

Responding to the abundance demand in intelligent-manufactured equipment and technology introduction arising from Industry 4.0 and the development trend of AI application, CYUT hosted the signing ceremony of "University-Industry Strategic Alliances of AI Engineering Application". Well-known international intelligent manufacturers : Mitsubishi Electric, Calin Technology, Azion Corporation, Tera-ASPer Service and Information Service Industry Association of R.O.C. are invited to cosign the MOU. By establishing the strategic alliances, CYUT is looking forward to the expansion of industry-academia collaboration for nurturing high-quality information communication and AI technology application talents, helping enterprises to digital transform through digitally innovation models.
